- CarTFT Value Line !

Support: Touchscreen Driver

The new "Value Line" from CarTFT.com stands for low priced but nevertheless outstanding display products. Unlike the CTF-series "Value Line" models have a more limited temperature range, a lower luminosity and are not tested for vibration or E1-certification. Also, these displays are not compatible with our all-in-one cable design.

New : LED-Backlight-Technology, with optimized color saturation enabling particular high and shining display. The scale of displayable color nuances is increased by 45% because of the new technology. Conventional LCDs are based on CCFL backlight, which can display approx. 72% of the standard color scale of NTSC (National Television Systems Committee). With LED-Backlight-Technology 104% of the NTSC-color scale can be displayed. This results in displaying in a highly realistic manner.

The new CVL1010 will convince you. Its the ideal display- and control unit for your Laptop, CarPC or HTPC. With help of the touchscreen functionality, the PC can be controlled comfortable with your fingers. The briliant VGA-/HDMI-display enables a maximum readability and sharpness.

The device has integrated Stereo-speakers. An AC-Home adapter and a cigarette lighter adapter is included with the package, as well as an IR-remote control unit.

Driver-CD included, compatible with :
- Windows 95/98/ME/NT4/2000/XP/7/8/8.1/10
- XP Tablet PC Edition
- Windows CE 2.12, 3.0, .net
- Linux RedHat,Mandrake,..
- Macintosh OS 9.x, 10.x
- DOS,..

Spezifikationen
