3. Read the agreement and accept conditions (the service is free !)

Agreement

In order to use the EZFINDER service, you must first accept the agreement below. Please read the agreement carefully.

1. ACCEPTANCE OF THE TERMS

(a) [AGREEMENT] Your use of the EZFINDER service ("SERVICE") is subject to the terms of the present legal agreement between yourself and the provider of the SERVICE ("SERVICE PROVIDER"). The present legal agreement is referred to herein as the "AGREEMENT".

(b) [SERVICE] The SERVICE includes, among other things, the interface, features, contents and functions of the SERVICE, as they may be modified from time to time at the sole discretion of SERVICE PROVIDER.

(c) [ACCEPTANCE] In order to use the SERVICE, you must first accept this AGREEMENT. You may not use the SERVICE or any part thereof if you do not accept this AGREEMENT.

(d) You can accept this AGREEMENT: (i) by checking the "I Agree" box and clicking on the "Continue" button or (ii) by using the SERVICE, in which case, you agree that your use of the SERVICE will be deemed to be your acceptance of this AGREEMENT.

(e) [AUTHORITY/CAPACITY TO ACCEPT AGREEMENT] You hereby solemnly declare that you have the legal authority and the legal capacity to accept this AGREEMENT.

Now you can manage your tracker or create a new one by clicking on the tracker-icon.

The screenshot shows the ezfinder web application interface. At the top, there is a navigation bar with the ezfinder logo and a menu with items: Main, Manage, Windows, Help, Sign Out. On the right side of the navigation bar, there are icons for a map, a clock, a smartphone, a person, a signal tower, a building, a warning sign, and a document. Below the navigation bar, there is a sub-header for 'Trackers' with a 'Trackers' button. The main content area contains a table with the following columns: IMEI*, Tracker Name*, Country Code*, SIM Card Phoi, Description, Model, Icon, Level, Upgrade, Start Date, Expiry Date, and Ima. The table is currently empty.

8. Click on „Add new Tracker“

Trackers

10. Your tracker has been added.

IMEI*	Tracker Name*	Country Code*	SIM Card Phon	Description	Model	Icon	Level	Upgrade	Start Date	Expiry Date	Ima
0128960091595	Speedy	Germany(+49)	157306		GTR129		Premium	Premium Service	30/04/2013	18/05/2013	

11. Click on „Configuratioin“

Model	Icon	Level	Upgrade	Start Date	Expiry Date	Ima
GTR129		Premium	Premium Service	30/04/2013	18/05/2013	

Configuration

12. Choose your SIM provider.

Hint: If you do not know APN, GPRS User and GPRS password then check the homepage of your provider or search or google.

Data for our E-Plus card :

SMS Credit(s): 0

Please follow these steps before configuring your tracker:

1. Make sure your SIM card has enough credit.
2. Make sure your SIM card can send & receive SMS.
3. Make sure your SIM Card send & receive data by GPRS.
4. Disable the (i) SIM PIN entry, (ii) voicemail, (iii) call waiting and (iv) call forwarding functions of the SIM card.
5. Confirm with your telecom operator its APN, GPRS User ID and GPRS Password. This information is needed for configuration.
6. Make sure your SIM card is correctly inserted into your tracker as per the tracker's user manual.
7. Make sure your tracker is fully charged and turned ON.

Phone number for tracker confirmation (0171793.....) Tracker will send an acknowledgement text to this cell phone number if it received SMS command successfully.

Step 1 - GPRS Configuration

Country	Telecom Operator	APN*	GPRS User	GPRS Password	
Germany	E-Plus	internet.eplus.de	eplus	eplus	Send

Step 2 - Emergency Configuration

Emergency SMS Phone Number 1*	Emergency SMS Phone Number 2	Emergency SMS Phone Number 3	
			Send

Step 3 - Report Configuration

Report Mode	Static Report Interval	Motion Report Interval	Motion Sensitivity	
	1 hour(s)	1 min(s)	High	Send

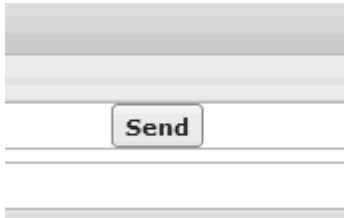

Note: If there are no SMS credits left, the system will by default send out the configuration commands by GPRS.

Please note that a command sent by GPRS may not work if the tracker is not reporting back to the system's server. It is therefore suggested that the command be sent by SMS using a mobile phone or Skype when there are no SMS credits left.

The SMS command text will appear in red after you click on the "Send" button.

On “Phone number for Tracker Confirmation” enter your cell phone number so you can receive alerts from your tracker device by SMS.

13. Confirm by clicking „Send“

This step is necessary to send configuration data to your tracker.

You have 3 free SMS in the system!

If you exhausted these, you can search for a web site which can send SMS for free. But ensure that no advertising is sent along with the message because this can confuse the tracker
eg. <http://www.planet-ali.de/#Free SMS>

Alternatively you can send SMS with Skype or apply for a Premium account.

SMS Credit(s): 0

Please follow these steps before configuring your tracker:

1. Make sure your SIM card has enough credit.
2. Make sure your SIM card can send & receive SMS.
3. Make sure your SIM Card send & receive data by GPRS.
4. Disable the (i) SIM PIN entry, (ii) voicemail, (iii) call waiting and (iv) call forwarding functions of the SIM card.
5. Confirm with your telecom operator its APN, GPRS User ID and GPRS Password. This information is needed for configuration.
6. Make sure your SIM card is correctly inserted into your tracker as per the tracker's user manual.
7. Make sure your tracker is fully charged and turned ON.

Phone number for tracker confirmation Tracker will send an acknowledgement text to this cell phone number if it received SMS command successfully.

Step 1 - GPRS Configuration					
Country	Telecom Operator	APN*	GPRS User	GPRS Password	
Germany	E-Plus	internet.eplus.de	eplus	eplus	<input type="button" value="Send"/>

You have used all free SMS credits.
Depending on the length of your previous report interval, you can either wait for the tracker to receive the following GPRS command or call the tracker immediately so that it can receive the command sooner:
GSC,012896009159515,LA,M4(D8=02,D1=internet.eplus.de,D2=eplus,D3=eplus,E0=gw.ezfinder.com.tw,E1=5000,A1=1,A2=20,J6=03,OS=60,F0=01717930302)*20!

Step 2 - emergency configuration

When you found a SMS sending service you need to copy the red command and send it by SMS to your tracker.

After some seconds you will receive a confirmation SMS with the content „ACK“.

Alternatively you can purchase a debug cable which enables configuration via a USB connection.

Now setup is completed and you can start tracking !
